Retraction Notice

Eccentric Training and an Achilles Wrap Reduce Achilles Tendon Capillary Blood Flow and Capillary Venous Filling Pressures and Increase Tendon Oxygen Saturation in Insertional and Midportion Tendinopathy: A Randomized Trial

Karsten Knobloch,^{*†} MD, Louisa Schreibmueller,[†] Robert Kraemer,[†] Michael Jagodzinski,[†] MD, Martinus Richter,[†] MD, PhD, Johannes Zeichen,[†] MD, PhD, and Peter M. Vogt,[‡] MD, PhD
From the [†]Trauma Surgery Department, and the [‡]Department of Plastic, Hand and Reconstructive Surgery, Hannover Medical School, Germany

This article has been withdrawn because it is a redundant publication of an article that was published in *Br J Sports Med*, Published Online First: 11 October 2006, doi:10.1136/bjism.2006.029504. The article went through peer review for publication in *Am J Sports Med* without the journal's knowledge that a similar article was submitted to *Br J Sports Med*. This article has therefore been withdrawn from *Am J Sports Med*, Published Ahead of Print: 27 December 2006, doi:10.1177/0363546506295700.
